

PRODUCT DATA SHEET

HIGH-CAPACITY SMART FILTRATION KIT

FOR FLOW RATES UP TO 125 GPM / 473 LPM

The High-Capacity Smart Filtration Kit works for operations with medium to high-flow systems that regularly need oils and fuel delivered efficiently with excellent ISO 4406 cleanliness level.

Smart Filtration cast aluminium Filter Heads with steel inserts prevent excessive metal-to-metal friction and adhesion between the head and the filter. Our Dual Filter Heads are designed for parallel flow for the lowest pressure drop while providing Ultra High Efficiency Single Pass Filtration.

Donaldson's proven spin-on technology also makes our Clean & Dry Smart Filtration Kit extremely easy to service without the need of specialized tools and personnel.

Kit Contents:

Dual Filter ST Head

4µm(c) B5000 99.98% Efficiency Filter

Pressure Gauge Adapter

Pressure Gauge

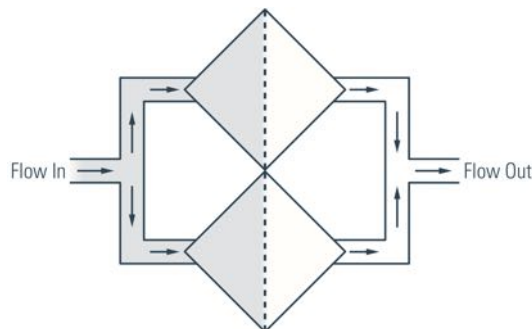

1 1/2" SAE 4-BOLT CODE 61 FLANGE

Connecting Bolts

Technical Specs:

Max Flow Rate:	125 gpm / 473 lpm
Working Pressure:	350 psi / 24 bar
Rated Static Burst:	800 psi / 55 bar
Filter Quantity:	2
Mounting Connection:	1 1/2" SAE 4-Bolt Code 61 Flange
Manufacturer:	Donaldson Company, Inc.
Country of Origin:	Canada
Gross Weight in Kilograms:	7.66

Dual Head With Parallel Flow Path
